

EXPLORING LANGUAGE
ANTL 160/LNGS 110

Library Workshop II

Today you'll be using BEARCAT and other library resources to find sources on learning a first language. You'll need to find five books and five articles. Since you want to know what's out there generally, you'll want to have articles from both scholarly and popular journals. You'll also want to find two works that focus on the acquisition of a language other than English.

Keep a research log:

What terms are effective? What steps do you follow? If you were actually writing a paper and need the source, would you be able to get it off the shelf or on line or would you need to use interlibrary loan?

For Thursday, October 1: Create a Works Cited page using the sources you found. We'll be discussing the research log and works cited page in class.
