

## POLS 100 – Peer Reviewed Articles Session, 11/9/16

### My Argument assignment

- Use the information you have acquired for the first part, but expand significantly on it.
- You now have to find at least 5 additional academic sources (at least 2 have to be peer reviewed).
- You have to write at least 1500 words.

### Basic search techniques for library databases

Search Tip	Explanation	Example
___ <b>AND</b> ___	Connect different ideas with AND	Poverty and drugs
( ___ <b>OR</b> ___ )	Place synonyms or related ideas connected by OR in parentheses or a single search box	(poverty or socioeconomic) and (drugs or addiction)
“ ___ ___ ”	Place multiple words that are one idea in quotations	“higher education” “common core”
Wordstem*	Place an asterisk after a word stem to catch endings	Violen* {this will return both violence and violent}

### Vocabulary

- A lot of your success in finding useful things is about the words you choose to search with.
- If you are lucky you have a topic with a clear label that everyone uses, e.g. “Common Core” – most likely, you will need to have a list of vocabulary to try to search with, e.g. not just renewable energy, but solar energy, wind, hydrothermal, ...
- Don’t just throw one search in and be done. Your topics have LOTS of resources – make sure what you choose is good. It might not be until the fourth or fifth search with different words that you find something spot-on.
- Do all your supporting sources need to be about *policy*? NO!!!! You are looking to back up your argument, not just parrot others. Articles at a broader level can be used to support your position.

### Databases

- **Quick Search** (box on library home page)
- **Opposing Viewpoints**: Library Home Page > Online Resources > Articles > Opposing Viewpoints in Context

# Screenshot Examples

The screenshot displays the Gale database interface. At the top, it shows 'SUNY Potsdam Libraries' and 'My Library: SUNY Potsdam College Libraries'. The search bar contains the text 'Body Cameras'. Below the search bar, there are navigation options: 'Browse Issues' and 'Maps'. The main content area features a large image of a protest with a sign that says 'STOP THE HEROIN'. Below the image, there is a text snippet: 'Heroin overdoses, which have quadrupled in the past decade, are reaching epidemic levels in the United States and are attributed to powerful blends containing the synthetic drugs Fentanyl and Carfentanil. [View More](#)'. To the right of the main content, there are sections for 'Featured Video' and 'Featured News'. The 'Featured News' section includes articles from Newsweek and National Review. At the bottom, there are several topic-based lists: Business and Economics, Energy and Environmentalism, Health and Medicine, Law and Politics, National Debate Topic, and Science, Technology and Ethics. Each list includes several links to related content.
